

It is my understanding that the FCC is considering a new broadcast service, LPFM, which would take priority over current FM translators. As my favorite radio station, K-LOVE, would be lost in that move, I would like to register my objection to this move. My local K-LOVE station is very meaningful to me, my children, and to many of my friends. Being able to listen to encouraging, peaceful music, without commercials, keeps me functioning at my best whether I am listening in the car or on-line at my office. As a social worker, I know how depressed and without hope people are becoming in our society. I truly believe that having this station available gives hope, cuts down on road rage and other behavioral issues, and encourages people from all walks of life to reach out in service to other people in the community. The music, from many different artists and styles, is the reality I pray for in our world. It is in direct opposition to the "reality" presented on other radio stations or on television, which are very popular in presenting a frantic, never enough, "gimme", "I'll do anything for money", sick type of reality. The K-LOVE stations are listener supported and I am one of those supporters. Knowing how much of their support comes directly from citizens paying monthly pledges of our hard earned money should be a clue of how important the stations are to a great many people all across the country. Please do not make any decisions which would take K-LOVE off the air.
